

INTERNATIONAL PUBLIC-SCIENTIFIC INITIATIVE "THE COMMUNITY: HEALTH, HUMAN POTENTIAL, SOCIO-ECONOMIC INNOVATIONS"

Venue: Kyiv, Ukraine
May 30, 2019.

The Organizers:

- International Platform “Mental Health: global challenges of the XXI century” (www.mhgc21.org);
- The Management and Business Academy (Great Britain)

The Partners:

Governmental Sector: Public Health Centre, Ministry of Health of Ukraine

Scientific Sector:

- Lviv Polytechnic National University
- Institute for Social and Political Psychology National Academy of Educational Sciences of Ukraine;
- Odessa National Economic University;

International Sector:

- NDSAN (Italy);
- “Promote Ukraine” (Belgium);
- General Department, University of Thessaly (Greece)
- Catholic University (Lublin, Poland)
- D.A. Tsenov Academy of Economics (Bulgaria)
- National Committee of Red Cross Society (Ukraine)

Public sector:

- All-Ukrainian Association “Agrarian confederation of Ukraine”
- National Association of Agricultural Advisory Services of Ukraine
- Union of Rural Green Tourism of Ukraine
- Nikopol Agency of Regional Development
- NGO “Struggle”;
- NGO “Growing Future”

The main questions:

The state-political dimension: Community: how to make "people's" reforms? How to create an effective system of cooperation between the community and the state? How to unite people to build a community?

Medical-humanitarian dimension: how to form a "health-oriented society" and "health-oriented economy" in modern communities? What innovations and perspectives are possible in developing the medical and social infrastructure of rural communities? How to effectively develop the recreational potential of rural areas?

Socio-economic dimension: Rural community: how to develop human potential for socio-economic innovations? How to capitalize on the existing human potential of the community? How to develop new sources of community income?

International dimension: Rural community and the global context: how to successfully understand and implement the leading international experience? How will the "smart village" and "health village" innovate the community life?

Target Audience:

- Representatives\members of Territorial Communities
- Public, State and Governmental Institutions
- Academicians, Researchers, Experts
- Business and economic policy communities
- Specialists of healthcare services\healthcare development

The International Public-Scientific Initiative "The Community: Health, Human Potential, Socio-Economic Innovations" unites people who are engaged in decentralization process, are interested in Sustainable Social Sphere Development, are open to innovative forms of Community Health development
