We are trying to appropriately reconstruct our history and to be active in building the future of our country. Thus, in historical perspective, we identify ourselves as Europeans, tirelessly paving the way to civilized intellectual and cultural world.

There is no alternative to this as we see Ukraine among the most developed nations of Europe and the world.

Our University has always been distinguished for its dynamic development and democratic nature. The University's adherence to the humanistic ideals of goodness, justice, and freedom, being in line with the best university traditions, is a guarantee of the sustainable development and progress of our Alma Mater.

Rector Professor Yuriy Bobalo

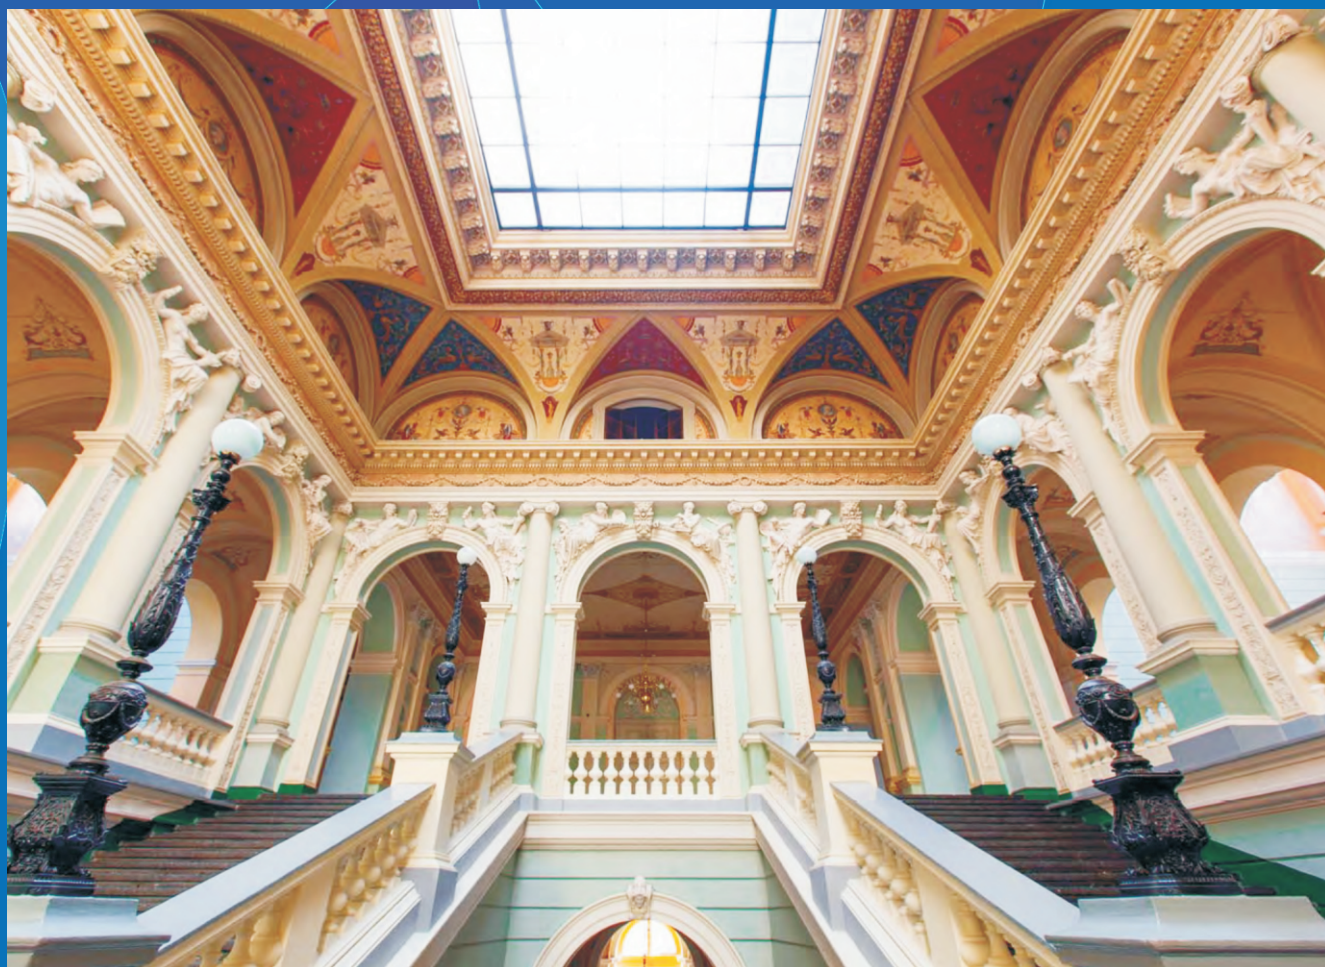

STRATEGY

MISSION:	<i>To form the generation of creative leaders and to develop innovative solutions!</i>
UNIVERSITY POSITIONING	<i>International high-technology centre of developing a personality, creating and implementing innovations</i>
UNIVERSITY SLOGAN:	<i>“Modern technologies are born right here!”</i>
OBJECTIVES:	<i>— to ensure free access to higher education to all those willing and having sufficient knowledge for it; — to develop modern curricula, academic facilities, and to provide highly intellectual teaching staff; — to develop modern high-technology scientific products being the result of research, comprehensive development of Lviv Polytechnic research staff and cooperation with other Ukrainian and international higher schools; — to be involved into the development of the Ukrainian society as a whole and Western region of Ukraine, in particular, through contributing into education of highly educated and patriotic citizens.</i>

LVIV POLYTECHNIC IN FIGURES:

- More than 30 000 STUDENTS
- 2 500 PROFESSIONALS
- 16 ACADEMIC INSTITUTES
- 200 YEARS OF EXPERIENCE
- TOP5 UNIVERSITIES IN UKRAINE

200 YEARS OF SERVICE TO SCIENCES AND ARTS

Being the oldest and largest academic technical educational institution of Ukraine and Eastern Europe Lviv Polytechnic National University is celebrating its glorious 200th anniversary. The University traces its roots from Imperial-Royal Real School in Lviv founded in 1816 that soon became a well-known scientific, intellectual and educational centre, the place where national culture, freedom and democracy were cherished.

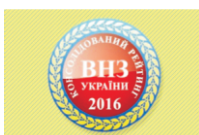

Today Lviv Polytechnic National University comprises 16 academic institutes, as well as the Institute of Distance Education and the International Institute of Education, Culture and Relations with Diaspora.

At present the University trains more than 35 thousand students and more than 2000 professionals.

The results of the expert rating show that recently Lviv Polytechnic has been among the top five higher educational institutions of Ukraine.

Improvement of education and research effectiveness, fruitful cooperation with international centres and foundations, formation of innovation infrastructure are the main priorities of Lviv Polytechnic, which ensure its reputation and recognition at present and guarantee its prestige for the future.

Institute of Power Engineering and Control Systems

Website: <https://lpnu.ua/en/ipec>

Department of Automation and Computer-Integrated Technologies
Department of Theoretical and General Electrical Engineering
Department of Heat Engineering and Thermal and Nuclear Power Plants
Department of Electromechanics and Computerized Electromechanical Systems
Department of Electric Power Engineering and Control Systems

Bachelor programs:

Electrical Energetics, Electrical
Engineering and
Electromechanics
Nuclear Power Engineering
Thermal Power Engineering
Automation and Computer-
integrated Technologies

Master programs:

Electric Power Stations
Electric Systems and Networks
Electrotechnical Systems of
Electricity Consumption
Electrical Machines and Apparatus
Electromechanical Automation
Systems and Electric Drive
Electricity Generation and
Distribution Control Systems
Energy Management
Energy Safety
Thermal Power Plants
Heat and Power Engineering
Automated Control of Technological Processes
Nuclear Power Engineering

Institute of Engineering Mechanics and Transport

Department of Welding Manufacture, Diagnostics and Restoration of Metal Structures
Department of Operation and Repair of Automotive Vehicles
Department of Designing and Operation of Machines
Department of Mechanics and Automation of Mechanical Engineering
Department of Applied Materials Science and Materials Engineering
Department of Mechanical Engineering Technologies
Department of Transport Technologies

Bachelor programs:

Applied Mechanics
Materials Science
Industrial Mechanical Engineering
Automobile Transport
Transport Technology
Metallurgy

Master programs:

Robotics Systems and Complexes
Logistics Systems Engineering
Mechanical Engineering
Machines and Packaging Technologies
Welding Technologies and Equipment
Applied Materials Science
Metallurgy
Traffic Control and Organization
Motor Vehicle Transport
Wheeled and Track-Type Vehicles
Electronic Industry Equipment
Light Industry and General Services Equipment
Equipment for Food and Processing Industry
Restoration and Increasing of Parts and Constructions Wear Resistance
Cargo and Transport Management (according to types of transport)

Department of Chemical Technology of Plastics Processing
Department of Chemical Technology of Silicate Materials
Department of Technology of Biologically Active Substances, Pharmacy and Biotechnology
Department of Organic Products Technology
Department of Physical, Analytical and General Chemistry

Bachelor programs:

- Chemical Technology and Engineering
- Biotechnology and Bioengineering
- Food Technology
- Pharmacy, Industrial Pharmacy
- Industrial Mechanical Engineering

Master programs:

- Chemical Technologies of Inorganic Substances
- Chemical Technologies of Organic Substances
- Technical Electrochemistry
- Chemical Technologies of Refractory Non-metal and silicate Materials
- Computer Chemical Engineering
- Pharmaceutical Biotechnology
- Chemical Technologies of Fuel and Carbon Materials
- Chemical Technologies of Polymer and Composite Materials Processing
- Chemical Technologies of Macromolecular Compounds
- Chemical Technologies of Food Supplements and Cosmetics
- Processes and Equipment of Chemical Plants
- Fermentation Products and Winemaking Technologies
- Pharmaceuticals Technologies
- Chemical Manufacturing and Building Materials Enterprises Equipment

ACADEMIC SPECIALITIES TAUGHT IN ENGLISH

Bachelor degree:

Code of specialty	Specialty
131	Applied Mechanics
133	Industrial Engineering
122	Computer Science
073	Management
192	Construction and Civil Engineering

PhD:

- Management
- Marketing
- Electrical energetic, electrical engineering and electromechanics
- Automation and computer-integrated technologies
- Architecture and town planning
- Building and civil engineering
- International Economic Relations
- Micro- and nano- system technology

Master degree:

Code of specialty	Specialty
131	Applied Mechanics
133	Industrial Engineering
122	Computer Science
073	Management
192	Construction and Civil Engineering
126	Information Systems and Technologies
191	Architecture and Urban Planning
292	International Economic relations
075	Marketing

Information about the National System of Higher Education of Ukraine

Ukraine's higher education system is regulated by the Constitution of Ukraine, the Laws of Ukraine «On Education», «On Higher Education», «On Scientific, Research and Development Activity», by ministerial and central government orders, and by international agreements which Ukraine has concluded in compliance with domestic and international law.

Education and training in Ukraine's higher education system is delivered at the following higher education levels:

Initial level (short cycle) of higher education, which corresponds to Qualification Level Five in the National Qualifications Framework;

First level of higher education (bachelor level), which corresponds to Qualification Level Six in the National Qualifications Framework;

Second level of higher education (master level), which corresponds to Qualification Level Seven in the National Qualifications Framework;

Third level of higher education (doctoral level), which corresponds to

Qualification Level Eight in the National Qualifications Framework;

Research level of higher education (habilitation), which corresponds to Qualification Level Nine in the National Qualifications Framework.

Attaining higher education at each of these levels requires successful completion of a relevant programme of study (vocational or academic) or research programme that leads to the award of a relevant higher education degree: junior bachelor; bachelor; master; doctor of philosophy; doctor of sciences.

General admission procedure for international applicants Foreign citizens, as well as stateless persons, can enter and study at Lviv Polytechnic National University at bachelor's, masters and doctoral levels for their own costs or on the basis of intergovernmental agreements. According to accredited educational programs (specialties), the study process lasts:

- 4 years for the undergraduate program;
- 1,5..2,0 years for the master's degree program;
- 4 years for the program of philosophy doctor.

In general, studies at the university are conducted in Ukrainian, and in some programs (specialties) - in English languages:

- foreign citizens who plan to study the Ukrainian language program but do not speak Ukrainian, enter the preparatory department for a period of 0.5..1.0 years for mastering the Ukrainian language and other subjects on their own choice.

- foreign citizens who plan to study the English language program, or have good Ukrainian knowledge and have confirmation documents, are enrolled in the university by interview results.

Foreigners who wish to study at Lviv Polytechnic National University need to:

1. Contact International Students Department and inform about their desire to study at University;
E-mail: foreign.dept@lpnu.ua, kompis@lp.edu.ua, international.office@lpnu.ua
Fax: +380322727863
Postal address: 79013 Ukraine, Lviv 12 Stepan Bandera Street
Lviv Polytechnic National University
2. Scan and send copies of all documents about the previously received education and wait for the answer about the studying possibilities;
3. Receive the original invitation from University for an interview for further enrollment;
4. Submit documents to the consular office of Ukraine and receive an entry visa;
5. Arrive to Ukraine and apply for study with the relevant package of documents;
6. Successfully pass interviews on specialized subjects and get positive results;
7. Sign an agreement (contract), which defines the duties and rights of the university and foreigner throughout the term of study.
8. To pay for a 1-year study in accordance with the terms of the concluded agreement.
9. Start study on the chosen specialty (specialization).

The documents required for entering at Lviv Polytechnic National University

- an application in the prescribed format;
- a passport with the Ukrainian visa;
- an original certificate and a notarized copy of the educational document (diploma), as well as supplement with the studied disciplines and received grades/marks (Educational documents of foreigners, issued by educational institutions of other countries, should be passed recognition procedure according to the Law of Ukraine);
- a general health medical certificate issued not earlier than two months prior to the arrival for studying in Ukraine;
- an emergency medical insurance (except foreign citizens who arrived from the countries, which have a preliminary agreement with Ukraine on free emergency medical care);
- a copy of the birth certificate;
- a return ticket with open departure date for the one-year period;

For additional information on the studies of foreign citizens at Lviv Polytechnic National University, please contact us at e-mail addresses: foreign.dept@lpnu.ua, kompis@lp.edu.ua, international.office@lpnu.ua.

An academic year at Lviv Polytechnic National University begins on 1 September and at Preparatory Department on 1 October and is completed in June next year.

Campus

TWELVE HALLS OF RESIDENCE ARE COMBINED INTO A LARGE HOUSING COMPLEX WHERE MORE THAN 8 THOUSAND STUDENTS AND POST-GRADUATES LIVE, STUDY AND REST.

There is well-developed infrastructure: three playgrounds, a football field, gyms, student clinic and student club. The university is making significant efforts to improve the material and technical base, repair works are regularly performed and the living rooms are redecorated. Student self-government bodies are very active within the university campus: annually students of every hostel elect their Students Hostel Council; and Students Operational Unit monitors whether everyone follows the rules. There is also a student library that provides the following services: providing information and advice; providing of scientific literature in reading rooms; copying (photocopying, printing); Internet access (Wi-Fi).
